Save Searches and Your Sanity in 3 Easy Steps

Updated December 2021

Does entering the same set of search options, over and over again, drive you crazy?

Save valuable time and your sanity, by using the **Saved Searches Gadget** in flexmls to keep common client "must-haves" like **Status**, **Area**, or **Price** at your fingertips.

Step 1: Save your Search

- Open the **Menu**.
- Select Quick Search
- Enter your search criteria.
- Select **Save** in the top right corner of the page.
- Name the search and enter a brief description.

Step 2: Add your Saved Search to Favorites

- Open Menu and select Saved Searches.
- Hover over the saved search to view a grey and white star
- Select the grey and white star so it becomes a gold filled star
